

NEW Wind Crest™ Designer Series Wall Mounted Hoods

Contemporary Elegance with Exceptional Performance and Installation Versatility

Wind Crest understands that the venthood bridges the gap between décor and appliance, where form and function are equals.

Our new Designer Series hoods offer that perfect balance. Our Low Profile canopy models offer better performance and styling than the standard, boring venthood found in most older kitchens, while the Stealth and Falcon chimney-style hoods look right at home in the most modern kitchen settings, with their sleek profiles and uniquely styled glass canopies.

Designer Series hoods are made from the finest grade of stainless steel with hand-finished edges and easy-to-use controls. All models come standard with a 600 CFM internal blower, dishwasher safe filters and halogen lighting. Available in 30" or 36" widths. Click on individual model for finish options and accessories available.

WCB362S Low Profile Classic Series Hood - 22" depth and 11" height. Shown in stainless.
